

COURSE TITLE: SEMINAR AND RESEARCH TECHNIQUE

COURSE CODE: EBNU5111

LEVEL: 500 Nursing

STUDENT NAME: NYADJA WANDJI ALAIN

HOME WORK ONE

1. What is research in one sentence?

•A research is a systematic investigation of a topic or problem

2. What makes a topic researchable?

A research topic is researchable if it has the following characteristics

- Specific enough to allow for a focused investigation and clear understanding of the research question
- Addresses a current issue, problem, or gap in knowledge
- Relevant and significant to the field of study
- Supported with plenty of published material
- Highly impactful, important, to the community, society and a professional field
- In every research title, 3 variables most stand out clear. These variables are said to be independent, dependent and extraneous variables
