COURSE: FUNDAMENTALS IN NURSING

ASSIGNMENT

QUESTION 1 a) I have a great passion for the nursing profession way back in my secondary school days after I offered care to my late father who was critically ill. This was when I derived the urge and concern to render holistic care to someone in need (serving humanity) especially in a hospital setting, which made me choose nursing as a profession.

b) Yes I will still choose nursing as a profession because I haven't and may never lose the passion.

QUESTION 2

I respect the dignity of patients. Being kind in providing care, considering patients emotions in everything I do, not forgetting to be compassionate, competent, committed, using good communication skills and also having a high respect for the ethics of nursing profession.

As a person I am an optimistic performance driven and result focused individual, with the ability to work either as an individual or part of a team to deliver set objectives within predefined timelines

QUESTION 3 a) in the next five years I will wish to have gone further in the nursing academic ladder, and also practice beyond the hospital setting, creating an impact in the health system of the nation.

b) while practicing and studying, with the help of God, I believe I will achieve this aspiration (goal)
