COURSE : SEMINAR AND RESEARCH TECHNIQUE

Assignment on :

- 1) What is research in one sentence
- 2) What makes a topic researchable

ANSWERS

- 1) Research is a process of systematic and scientific investigation that leads to the discovery or establishment of new knowledge or truth.
- 2) A topic is researchable if it drives you to pursue your interest, either to learn something new or demonstrate your problem-solving skills and to challenge yourself in new ways.
